

Application No.: 10/783304
Docket No.: UC0412USNA

Page 10

REMARKS

Responsive to the Restriction Requirement dated October 19, 2005, Applicants elect Group I, Claims 1-25, which are directed to compounds and compositions. The species selection is when R^1 is phenyl, R^2 is hydrogen, R^3 is phenyl and $n=1$, and $E=O$.

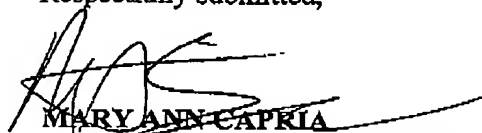

Applicants also traverse the restriction requirement for the reason that while Group II, Claims 26-37, which are directed to uses and devices using the compounds and compositions of Claims 1-25, no additional examination is required if the compounds and compositions are determined to be novel and non-obvious. Thus, Group II claims have simply been withdrawn and Applicants reserve the right to ask the Examiner to allow these claims later in the examination process.

Claim 20 is amended herein to delete typographical errors. No new matter is introduced.

It is respectfully submitted that the above referenced application is in condition for examination and allowance.

Please charge any fees which are required in connection with the filing of this Response to Restriction to Deposit Account No. 04-1928 (E. I. du Pont de Nemours and Company).

Respectfully submitted,

MARY ANN CAPRIA
